

Covid-19

Patient safety Precautions

1 Before entering the clinic, wash your hands thoroughly using soap/sanitizer. Do not touch your face with hands.

2 Wear protective masks or towels so as to cover the mouth and nose till you are instructed to remove it.

3 If you are coming from a contagion zone/hot spot zone or had any contact in any form with Covid-19 affected patients kindly inform the fact. This would help us to take the necessary precautions.

4 DO NOT...
● Spit,
● Put fingers inside the mouth or touch your teeth.

Kindly, Fill and submit the Covid-19 screening form (Risk Assessment form) by providing true and accurate Information.

Furnishing false information in the Covid-19 screening form is a punishable offence.

5 Please take appointment prior.

Kindly avoid crowding and observe 'Social Distancing'.

Be seated in accordance with the chair arrangement in the waiting area.

Unless absolutely warranted, bystanders will not be allowed to accompany the patients into the operatory.

6 Kindly obey the rules and instructions put forward by the Government.

SORRY FOR THE INCONVENIENCE CAUSED
